WinVRS (Windows Vehicle Recording System)

Windows Vehicle Recording Systems

WinVRS - Touch

Powerful WinVRS software keeps traffic moving over your scale by providing fast and accurate collection of data on vehicles, accounts, orders, and materials. Unique, user-defined fields allow you to easily configure the system to meet your needs. A wide range of reports are available to provide period histories, material totals, customer information and more. WinVRS's convenient file utilities menu allows data to be exported to other applications such as accounting and materials control. Customized reports and NTEP legal-for-trade certified are other advantages.

WinVRS-TOUCH offers all the same great features as WinVRS, but comes with larger fonts and buttons for convenient touch-screen navigation. When a user enters into any WinVRS window with input prompts, an on-screen keyboard appears.

Truck scale industry knowledge and programming expertise combined to create economical software package that gives you control over your truck scale operation. From the simple to use start up menu, navigate directly to the transaction screen by pressing just one key. Simply enter or select the vehicle ID and WinVRS-LT will immediately recall the information stored for that particular vehicle.
